8	Middlesex	12.16%	18	12.39%	14	13.64%	18	11.36%	15	11.11%	11	12.12%	8	12.31%	8	10.67%	
		148		113		132		132		99		66		65			

Q5 - Please check all of the following methods by which you receive updates and information about opioid-involved overdoses and overdose clusters in your community.

#	Field	Choice Count
10	Communication with colleagues	18.09% 91
11	Communication with patients/clients	11.33% 57
12	I don't receive updates or information about overdoses	5.77% 29
13	Insights from harm reduction services	10.14% 51
14	Insights from nearby drug testing sites	4.37% 22
1	ODMAP spike alert emails from Connecticut Department of Public Health [CT DPH]	10.93% 55
15	ODMAP spike alert emails from local health governance [e.g. local health department/health district]	6.96% 35
3	ODMAP spike alert text messages from local health governance	2.78% 14
17	Other [please include more information below]	0.60% 3
9	Phone calls about overdoses [not from ODMAP]	1.79% 9
5	Phone calls from CT DPH	1.79% 9
6	Phone calls from local health governance	2.39% 12
4	Regular messages [e.g. listserv] from local first responder agency	3.38% 17
16	Regular messages [e.g. listserv] from opioid task force, prevention councils or other source	7.75% 39
2	Review of ODMAP or other overdose data [e.g. EpiCenter]	9.94% 50
8	Text messages about overdoses [not from ODMAP]	1.99% 10
		503

Showing rows 1 - 17 of 17

Q25 - Which of the following in this list have you found to be MOST HELPFUL in terms of responding to opioid-involved overdoses in your community?

#	Field	Choice	Count
1	ODMAP spike alert emails from Connecticut Department of Public Health [CT DPH]	11.56%	17
2	Review of ODMAP or other overdose data [e.g. EpiCenter]	8.16%	12
3	ODMAP spike alert text messages from local health governance	1.36%	2
4	Regular messages [e.g. listserv] from local first responder agency	3.40%	5
5	Phone calls from CT DPH	1.36%	2
6	Phone calls from local health governance	1.36%	2
7	Text messages about overdoses [not from ODMAP]	1.36%	2
8	Phone calls about overdoses [not from ODMAP]	0.00%	0
10	Communication with colleagues	20.41%	30
11	Communication with patients/clients	6.80%	10
12	I don't receive updates or information about overdoses	18.37%	27
13	Insights from harm reduction services	6.12%	9
14	Insights from nearby drug testing sites	2.04%	3
15	ODMAP spike alert emails from local health governance [e.g. local health department/health district]	6.80%	10
16	Regular messages [e.g. listserv] from opioid task force, prevention councils or other source	8.84%	13
17	Other [please include more information below]	2.04%	3

147

Showing rows 1 - 17 of 17

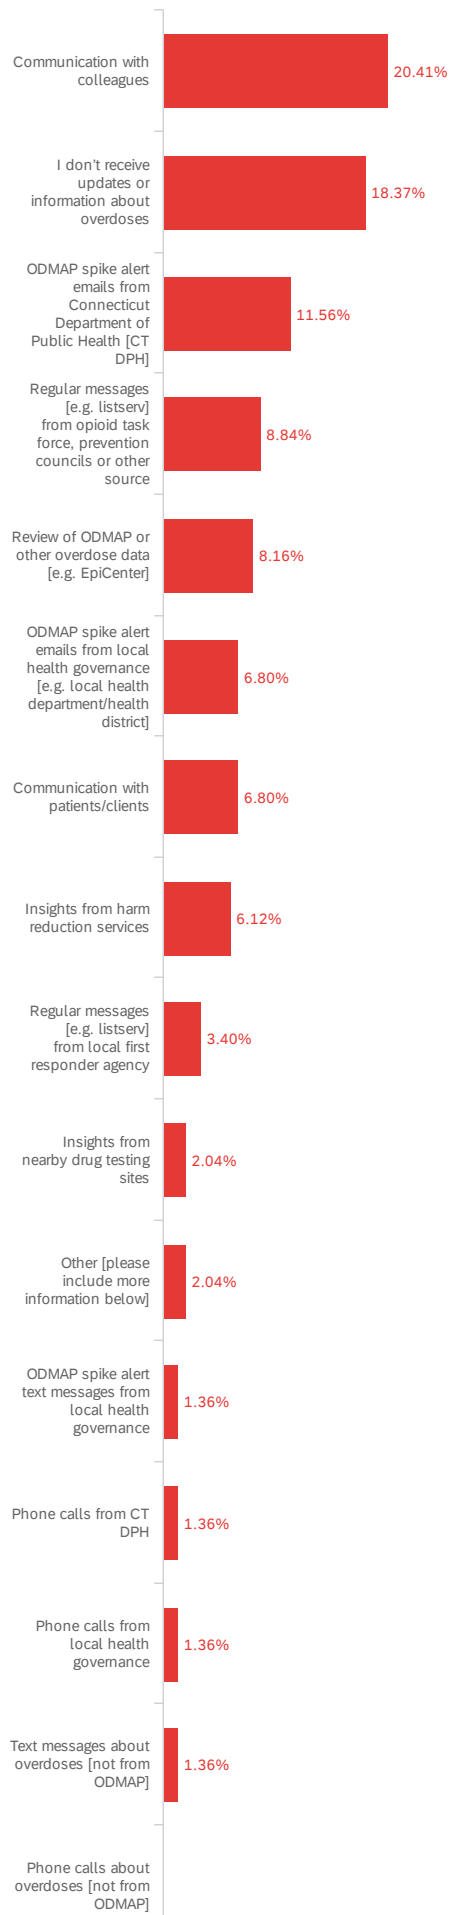

Q25_17_TEXT - Other [please include more information below]

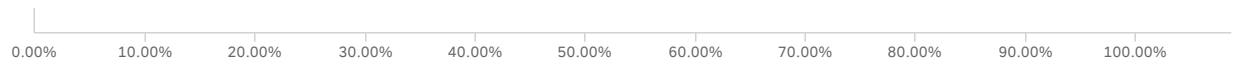

Other [please include more information below]

Can't say...I've never accessed them

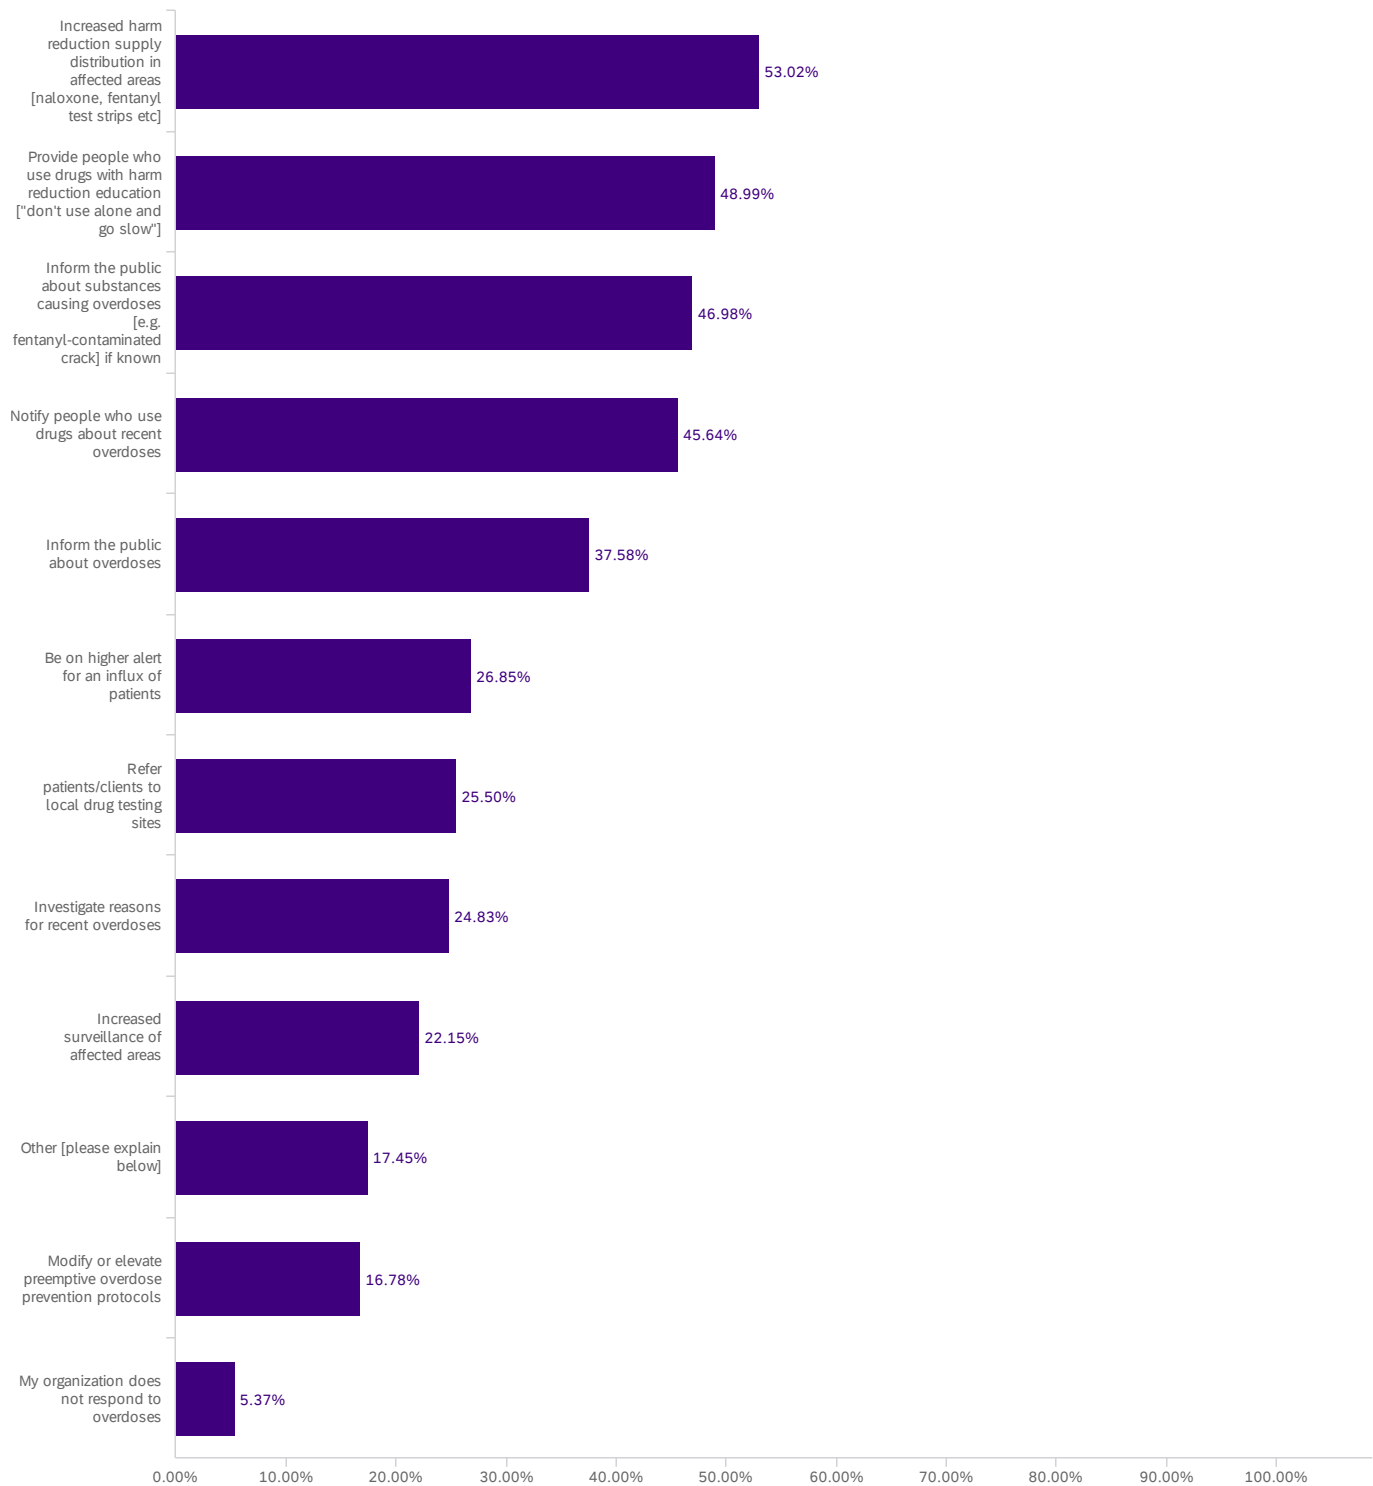

Dispatch

Referrals from law enforcement and first responders

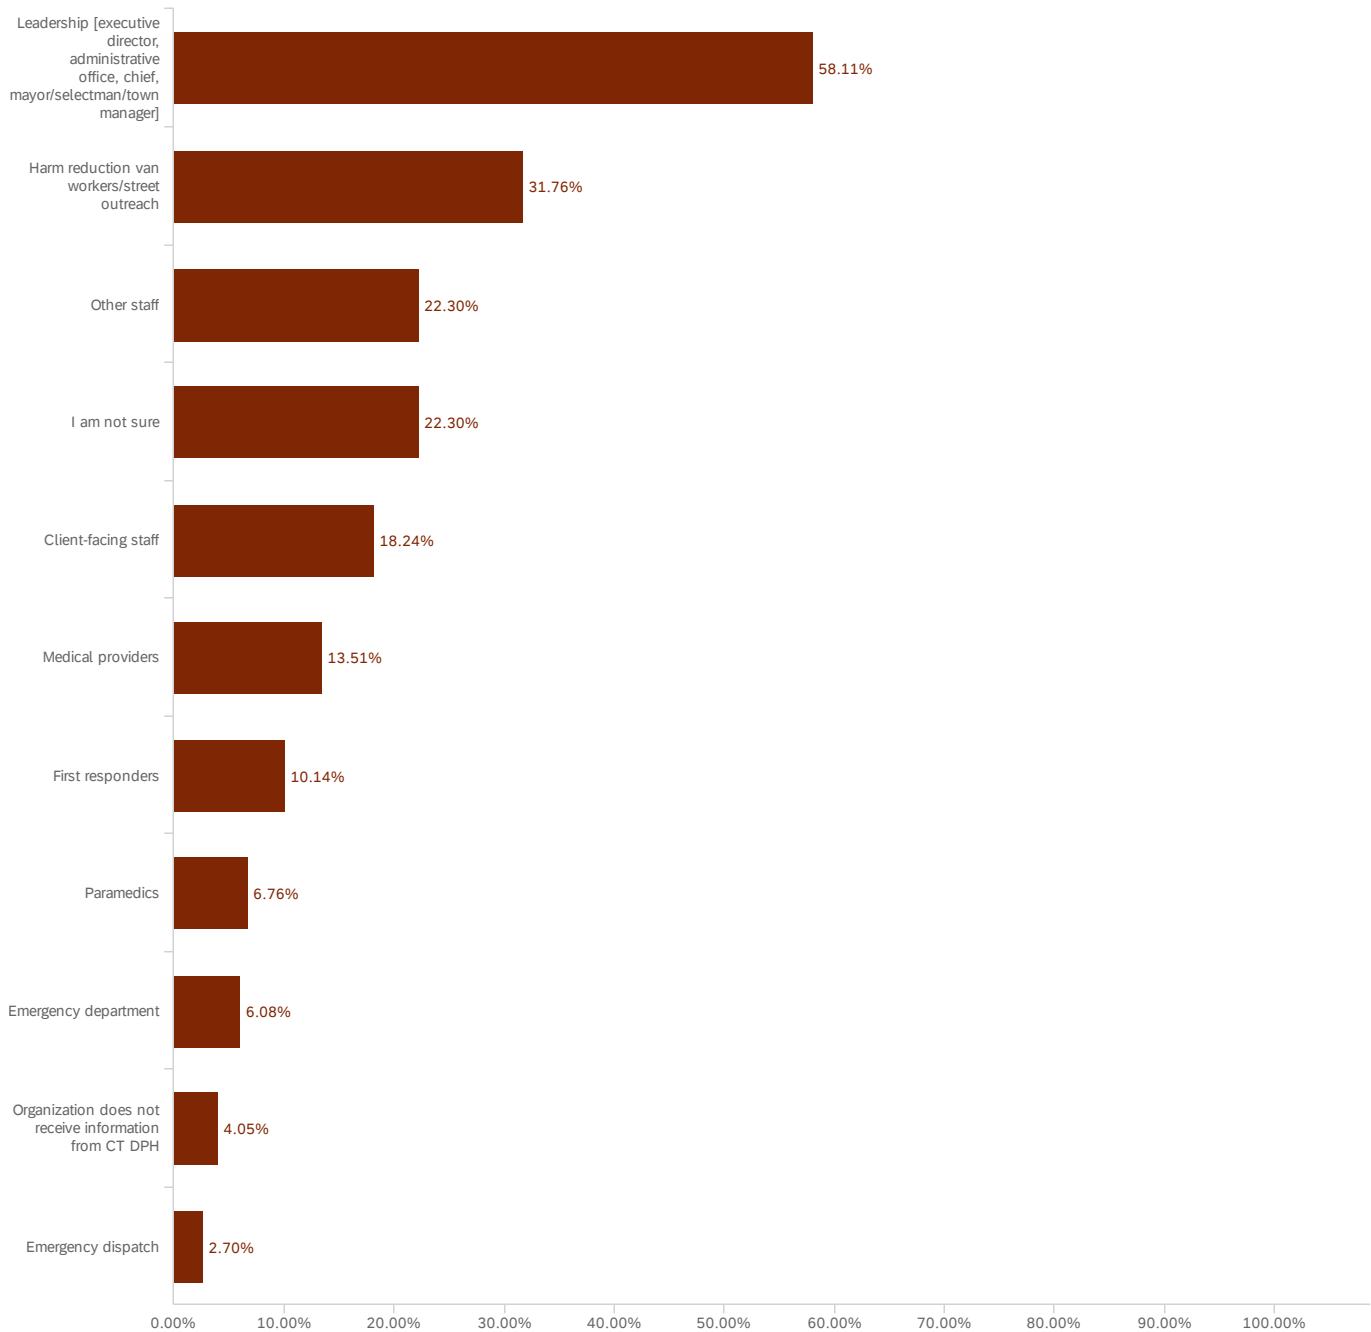

Q22 - How do you/your organization respond to opioid-involved overdoses in your community?

#	Field	Choice Count
9	My organization does not respond to overdoses	1.45% 8

		Choice	Count
12	Modify or elevate preemptive overdose prevention protocols	4.70%	26
10	Other [please explain below]	5.97%	33
7	Increased surveillance of affected areas	6.69%	37
8	Investigate reasons for recent overdoses	6.87%	38
11	Refer patients/clients to local drug testing sites	7.23%	40
6	Be on higher alert for an influx of patients	10.13%	56
5	Inform the public about overdoses	12.30%	68
2	Notify people who use drugs about recent overdoses	12.66%	70
4	Inform the public about substances causing overdoses [e.g. fentanyl-contaminated crack] if known	13.20%	73
3	Provide people who use drugs with harm reduction education ["don't use alone and go slow"]	14.29%	79
1	Increased harm reduction supply distribution in affected areas [naloxone, fentanyl test strips etc]		

Q7 - Who in your organization receives updates and information about opioid-involved overdoses and overdose clusters in your community from the Connecticut Department of Public Health [CT DPH]?

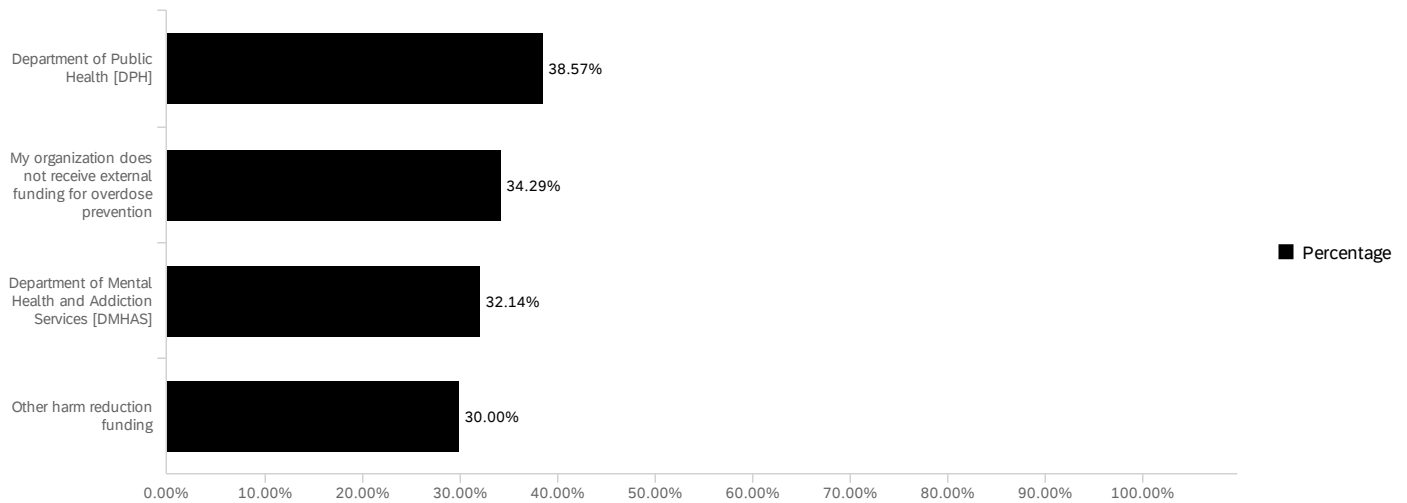

#	Field	Choice Count
5	Paramedics	3.45% 10

#	Field	Choice	Count
11	Other staff	11.38%	33
8	Organization does not receive information from CT DPH	2.07%	6
3	Medical providers	6.90%	20
1	Leadership [executive director, administrative office, chief, mayor/selectman/town manager]	29.66%	86
12	I am not sure	11.38%	33
2	Harm reduction van workers/street outreach	16.21%	47
4	First responders	5.17%	15
7	Emergency dispatch	1.38%	4
6	Emergency department	3.10%	9
10	Client-facing staff	9.31%	27
			290

Showing rows 1 - 12 of 12

Q26 - Please check the funding sources your organization receives for your overdose prevention and response efforts.

#	Field	Choice Count
1	Department of Mental Health and Addiction Services [DMHAS]	23.81% 45
2	Department of Public Health [DPH]	28.57% 54
4	Other harm reduction funding	22.22% 42
5	My organization does not receive external funding for overdose prevention	25.40% 48
